

## **Paperboard Added to Centre County's Recycling Program**

Beginning January 2, 2009, the Centre County Solid Waste Authority is adding paperboard to its recycling program.

Paperboard items that may be recycled include but are not limited to:

*cereal boxes, shoe boxes, gift boxes, clean food boxes (such as Nutri-Grain boxes, spaghetti boxes, cracker boxes, etc), paper towel rolls, toilet paper rolls and tablet backs.*

It is **very important** to note that paperboard products should **not** be placed with corrugated cardboard.

Curbside residents are asked to recycle paperboard along with their mixed paper. Please place the paperboard products and mixed paper in a plastic bag next to your curbside recycling bin.

Residents who bring their recyclables to county drop-off bins should place the paperboard in the compartment labeled "Mixed Paper/Junk Mail". Please do not place the paperboard in with the corrugated cardboard.

Commercial customers should place paperboard in the blue toter labeled "Mixed Paper." Do not place plastic bags in the blue toters.

The Solid Waste Authority is pleased to provide this service to its residents. Make sure to follow the proper procedures when recycling.
